

The background is a vibrant blue gradient with various mathematical symbols scattered throughout. Symbols include plus signs, minus signs, multiplication signs, division signs, and arrows. Some symbols are large and prominent, while others are smaller and faint. The overall aesthetic is clean and modern, with a focus on mathematical themes.

# What is Math Pentathlon?

- Uses problem-solving games to make math enjoyable for all students, parents, and teachers. A highly motivational way for students to gain math fluency in computational, spatial and logical reasoning.

- There are 4 divisions, we have three.

[Division II Grades 2 and 3.](#)

[Division III Grades 4 and 5.](#)

Division IV Grades 6 and 7.

- There are 6 games for each division. Two that build computational reasoning, two for spatial reasoning and two for logical reasoning.

# Meetings

- Elementary -Thursday nights from 3:30 – 5:00
- Send in a healthy snack and water/juice as we will have snack time.
- Math club members must be picked up promptly at 5:00 pm at door 1 which is the old MS entrance. If they are not picked up on time 3 times, they can not participate any longer.
- **Do not call office to see if there is math club. Use the provided calendars or go to district website under elementary tab and click on math club.**
