

SINCLAIR COLLEGE

STUDENT SPOTLIGHT

Brandon Swihart
Grade 12
Bethel High School
College Credit Plus

Plans for the Future

I plan on transferring to the University of Dayton to pursue a degree in Mechanical Engineering. I hope to work as an engineer for an auto manufacturer because I'm mechanically inclined and have a passion for cars.

How has this program helped you accomplish your goals?

As a member of the University of Dayton/Sinclair Academy for Engineering, College Credit Plus allows me to obtain a great education at no cost. Additionally, all of my classes will transfer directly to UD, making further education much more affordable.

Brandon has successfully completed 17 credit hours and is currently taking 14 credit hours. GPA 2.6
